

Norsk Pointerklubs indeksliste våren 2014

Indeksene oppdateres 2 ganger årlig, og denne lista er basert på data innlagt i NKK's dogweb per 12. februar 2014. De aller fleste høstprøvene 2013 skal da være med i beregningen.

For å komme med på denne lista må hunden ha startet minst 3 ganger på jaktprøve i Norge og ha over 100,5 i jaktlystindeks eller viltfinnerindeks. Lista er sortert etter reg.nr. Dette er hunder som man forventer har potensiale til å gi avkom over gjennomsnittet når det gjelder jaktlyst og/eller viltfinnerrevne. Indeksene baseres på resultater fra hunden selv og dens slektninger og sier mer om hundens potensielle avlsprestasjon på området jaktlyst og viltfinnerrevne enn hundens egenprestasjon på prøver. Indeks for jaktlyst og viltfinnerrevne er basert på kritikkskjemaer fra jaktprøver i Norge. Sikkerheten rundt tallene til hunder etter utenlandske foreldre er derfor dårligere enn for de med norske foreldre. Indeksene blir sikrere jo flere starter hundene og nære slektninger (særlig avkom) gjør. Lista er ment som et supplement til oppdrettere ved valg av avlsdyr. Det vises forøvrig til generell info om indekser i tidligere utgaver av årboka samt på nett.

Regnr	Navn	Indeks jaktlyst	Indeks viltfinner- evne	Indeks HD	HD status	Antall starter
